

DR. RYAN PEEK

I have worked in many rivers and aquatic systems in California, and continue to strive to find ways to apply research to conservation management. I am particularly interested in using a confluence of disciplines such as genomics, hydrology, ecology, and geomorphology to better understand current and future impacts to our freshwater ecosystems.

I am a strong advocate for open science, and education; and giving voices, training, and space for folks who support and foster a supportive community with diverse questions and views.

EDUCATION

2018
|
2014

- **PhD, Ecology (with certificate in Conservation Management)**
UC Davis Davis, CA
 - Population genetics of a sentinel stream-breeding frog (*Rana boylii*)
- **M.S., Biology**
University of San Francisco San Francisco, CA
 - Thesis: Landscape Genetics of Foothill Yellow-Legged Frogs (*Rana boylii*) in regulated and unregulated rivers: Assessing connectivity and genetic fragmentation
- **B.S. Wildlife, Fish & Conservation Ecology**
UC Davis Davis, CA
 - Emphasis in Behavioral Ecology

2010
|
2008

2002
|
1998

RESEARCH EXPERIENCE

2020
|
2018

2018
|
2014

- **Post-doctoral Researcher**
Center for Watershed Sciences UC Davis
 - Analysis of connectivity and genetic health of rare endemic frogs in CA, NV, and AZ to inform conservation management.
 - Analysis of floodplain foodwebs for salmon to better understand connectivity and seasonality for management.
 - Research and analysis on how to link ecological bioassessment data with flow management for functional environmental flows.
- **Graduate Student Researcher**
Center for Watershed Sciences UC Davis
 - Research in amphibian/aquatic ecology, with particular focus on assessing ecological health with molecular techniques to inform conservation in river ecosystems.

2014
|
2011

● **Jr. Research Specialist**

Center for Watershed Sciences

📍 UC Davis

- Research in stream ecology and montane aquatic ecosystems, with particular focus on ecosystem function and hydroclimatic impacts on regulated rivers in the Sierra Nevada.

2010
|
2009

● **Research Assistant II**

UC Berkeley

📍 Berkeley, CA

- As part of a California Energy Commission study of regulated flow effects on foothill yellow-legged frog (*Rana boylii*) breeding habitat, led field research crews for extensive field data collection.
- Collaborated with Sarah Yarnell and Amy Lind on field methodology and integrating graduate research with the grant research.

2009

● **Research Assistant II**

UC Davis

📍 Davis, CA

- Working with Sarah Kupferberg and Alessandro Catenazzi, assisted in research, as part of a California Energy Commission study, of regulated flow effects on water temperatures and foothill yellow-legged frog (*Rana boylii*)
- Including predation experiments and tadpole growth experiments, Helped deploy thermographs in various Sierran rivers throughout California. Conducting research on tributary density in relation to amphibian occupancy in regulated rivers in California.

⬇️ INDUSTRY EXPERIENCE

2011
|
2002

● **Fish & Wildlife Biologist**

Stillwater Sciences

📍 Davis CA

- Field and Project Manager, conducted research in aquatic, terrestrial, and riparian ecosystems. Assisted in the development of restoration, conservation, and management strategies in various watersheds throughout California and Oregon for amphibian and fisheries related projects.
- Extensive experience completing watershed analyses. Successfully worked independently and collaboratively on various projects including leading field crews, managing budgets, conducting meetings, analyzing data, and writing comprehensive reports.
- Watershed Experience: Alameda Creek (San Francisco Public Utilities Commission), Upper American River (Sacramento Municipal Utility District), South Fork Feather River (South Feather Water & Power), Yuba River (North, Middle, and South) (CH2MHill), Napa River and Floodplain (US Army Corp of Engineers), Santa Clara River (California State Coastal Conservancy), McKenzie River (Eugene Water and Electric Board), Upper Merced River (Merced Alliance), Butte Creek and West Branch Feather River (PG&E), McCloud and Pit Rivers (PG&E)

2010

● **Biological Science Technician**

USDA Forest Service, Pacific Southwest Research Station

📍 Davis, CA

- Developed and designed website on ecology, river regulation and conservation of the foothill yellow-legged frog (*Rana boylii*), including GIS synthesis and development of a distribution map showing over 6,000 records from multiple sources (http://gis.fs.fed.us/psw/topics/wildlife/herp/rana_boylii/).
- Conducted 1-D RHABSIM modeling and analysis. Coordinate field research, data collection, and writing.

- 2001
- **Biological Science Technician**
National Park Service 📍 Sequoia & Kings Canyon, CA
 - Part of a 2-person backcountry crew working on a federally threatened Sierra/Mountain yellow-legged frog (*Rana sierrae*) conservation and restoration project during the initial year of the project.
 - This position involved extensive backpacking and hiking experience while living in remote and rugged terrain at 10,000-12,000 feet for multiple weeks at a time. Required the ability to work independently, efficiently, and safely.
 - Conducted amphibian surveys of mountain lakes and identified amphibian species in larval and adult stages, habitat assessment, data collection, and non-native fish removal.

SELECTED PUBLICATIONS

- 2020
- **Understanding community assembly rules in managed floodplain food-webs**
Ecosphere (in press)
 - Corline, Nicholas J., Ryan A. Peek, Jacob Montgomery, Jacob V.E. Katz and Carson A. Jeffres.
- 2020

SELECTED DATA SCIENCE WRITING

- 2020 ● **Drawing Boundaries with DNA to Improve Conservation**
California Water Blog
• Story about using genetics to draw boundaries for conservation management
- 2016 ● **Cue the Frogs! Water signatures, environmental cues and climate change**
California Water Blog
• Story about environmental cues for amphibians in rivers
- 2015 ● **Time Lapse Photos Expose Nature in the Raw**
California Water Blog
• Story about using game cameras to monitor the environment

TEACHING EXPERIENCE

- 2020 | 2019 ● **Strategies & Techniques for Analyzing Microbial Population Structures**
Marine Biological Laboratory  Woods Hole, MA
• Research facilitator/teacher for the STAMPS course on analysis of metagenomic data. Provided interdisciplinary bioinformatic and statistical training to practitioners of molecular microbial ecology and genomics.
• Topics covered included acquisition and organization of next generation sequence data; principles of quality control of sequence data and data management; methods of taxonomic assignment and clustering of targeted gene data. Also an introduction to the Linux command-line and R statistical environments.
(<https://www.mbl.edu/education/courses/stamps/>)

2020
|
2016

● **Data Carpentry Workshops**

Various

- Teach researchers in science, engineering, medicine, and related disciplines the computing skills they need to get more done using open source and reproducible tools. Specifically, have taught genomics/ecology/geospatial workshops at Stanford, UC Davis, UC Berkeley, and University of Rhode Island Coastal Institute. (<http://software-carpentry.org/>) (<http://www.datacarpentry.org/>)

2019
|
2017

● **R for Data Analysis and Visualization in Science**

UC Davis

📍 Davis, CA

- Lead instructor and creator of graduate course teaching R and version control for 25+ students. Course designed to train students in toolsets applicable to the entire process of reproducible data-driven research and encourage the use of open-source tools.
- Built website and made course materials openly available on github. (<https://gge-ucd.github.io/R-DAVIS/>).
- now a required graduate course in Ecology

2018

● **Foothill Yellow-Legged Frog Ecology, Management, and Regulation**

Humboldt State

📍 Arcata, CA

- One of three main instructors for workshop designed to cover the natural history and management of the foothill yellow-legged frog.
- Three days of lecture followed by a field day covered ecological requirements of the species, mitigation, restoration, and permitting requirements if listing takes place

2018

● **Intro to Genomics (Data Carpentry)**

DIBSI

📍 Davis, CA

- Co-instructor. Data Intensive Biology Summer Institute at UC Davis is a series of two-day or week-long workshops for biologists to learn bioinformatics and data science. The Intro to R course was built as an interactive, week-long introduction to the programming language R. Following Carpentry workshop content, taught basics of R by live-coding with participants
- (<https://dib-lab.github.io/2018-06-27-DIBSI-Genomics/>)

2017

● **Intro to R**

DIBSI

📍 Davis, CA

- Co-Instructor. Data Intensive Biology Summer Institute at UC Davis is a series of two-day or week-long workshops for biologists to learn bioinformatics and data science. The Intro to R course was built as an interactive, week-long introduction to the programming language R. Following Carpentry workshop content, taught basics of R by live-coding with participants
- (<https://mikoontz.github.io/data-carpentry-week/>)

2015

● **Ecogeomorphology**

UC Davis

📍 Davis, CA

- Co-instructor. Taught advanced undergraduate students to multidisciplinary collaborative watershed and stream analysis through combined laboratory and field study of a selected stream system. Educated students from diverse backgrounds to work in interdisciplinary research teams to collect and analyze field data from the Tuolumne River system.
- Serve as rafting guide, as well as lectured, and taught in classroom, lab, and field, including a 3 day rafting trip on the Tuolumne River. (<https://watershed.ucdavis.edu/education/classes/>)

- 2010
- **Geospatial Analysis**
University of San Francisco
 - Teaching Assistant
 - Lab instructor for undergraduate geospatial analysis course using ArcGIS; planned and conducted lab activities and led discussions for one semester
- 2014
- **A Watershed Moment**
UC Davis Magazine, Spring.
- 2013
- **Cool and Collected**
College of Agricultural and Environmental Sciences Outlook, Spring
- 2020
- **Tips for Souping of RMarkdown Documents**
 - Top ten tips for making RMarkdown better
- 2019
|
2015
- **The Aggie Brickyard. A Student Run Magazine**
Co-Founder & Design Editor
 - UC Davis
- ## OTHER PUBLICATIONS
- 2013
- **Management of the Spring Snowmelt Recession: An Integrated Analysis of Empirical, Hydrodynamic, and Hydropower Modeling Applications**
Final Report. California Energy Commission. Publication number: CEC-500-2013. 137 pp.
 - Yarnell, S.M, R.A. Peek, D.E. Rheinheimer, A.J. Lind, and J.H. Viers
- 2013
- **Montane Meadows in the Sierra Nevada: Changing Hydroclimatic Conditions and Concepts for Vulnerability Assessment**
Center for Watershed Sciences Technical Report (CWS-2013-01), University of California, Davis. 63 pp.
 - Viers, J.H., SE Purdy, R.A. Peek, A. Fryoff-Hung, N.R. Santos, J.V.E. Katz, J.D. Emmons, D.V. Dolan, and S.M. Yarnell.
- 2011
- **Validation of Regional Habitat Suitability Criteria and Instream Flow Modeling Applications for the Foothill Yellow-Legged Frog (*Rana boylii*)**
Final Report. California Energy Commission, PIER. Publication number: CEC-500-2011.
 - Yarnell, S., A. Lind, C. Bondi, R. Peek, and J. Mount. 2011.
- 2010
- **Landscape Genetics of Foothill Yellow-legged Frogs (*Rana boylii*) in regulated and unregulated rivers: Assessing connectivity and genetic fragmentation.**
Master's Thesis, Biology Department. University of San Francisco, CA. 69 pp.
 - Peek, R. A.
