

# DR. RYAN PEEK

I have worked in many rivers and aquatic systems in the West, with particular interest in the integration and application of geospatial data across multiple disciplines such as ecology, genomics, and hydrology. I strive to continue to conduct open and applied conservation research to better understand current and future impacts to our freshwater ecosystems.

I am a strong advocate for open science, and giving voices, training, and space to those who support and foster community with diverse questions and views.

## EDUCATION

Last updated on 2021-11-14.

2014  
|  
2011

- **Junior Research Specialist**  
Center for Watershed Sciences 📍 UC Davis
  - Research in stream ecology and montane aquatic ecosystems, with particular focus on ecosystem function and hydroclimatic impacts on regulated rivers in the Sierra Nevada.
- **Research Assistant**  
UC Berkeley 📍 Berkeley, CA
  - Led field research crews for extensive field data collection as part of a California Energy Commission study of regulated flow effects on foothill yellow-legged frog (*Rana boylii*) breeding habitat.
  - Collaborated with Sarah Yarnell and Amy Lind on field methodology and integration of conservation genomics with flow analyses.
- **Research Assistant**  
UC Davis 📍 Davis, CA
  - Research with Sarah Kupferberg and Alessandro Catenazzi of regulated flow effects on water temperatures and foothill yellow-legged frog (*Rana boylii*)
  - Ran predation and tadpole growth experiments, field deployment of thermographs in various Sierran rivers throughout California.

## ⬇️ INDUSTRY EXPERIENCE

2011  
|  
2002

- **Fish & Wildlife Biologist**  
Stillwater Sciences 📍 Davis CA
  - Conducted research in aquatic, terrestrial, and riparian ecosystems as a field lead and project manager. Developed restoration, conservation, and management strategies in various watersheds throughout California and Oregon for amphibian and fisheries related projects.
  - Extensive experience completing watershed analyses. Successfully worked independently and collaboratively on various projects including leading field crews, managing budgets, conducting meetings, analyzing data, and writing comprehensive reports.
  - Watershed Experience: Alameda Creek (San Francisco Public Utilities Commission), Upper American River (Sacramento Municipal Utility District), South Fork Feather River (South Feather Water & Power), Yuba River (North, Middle, and South) (CH2MHill), Napa River and Floodplain (US Army Corp of Engineers), Santa Clara River (California State Coastal Conservancy), McKenzie River (Eugene Water and Electric Board), Upper Merced River (Merced Alliance), Butte Creek and West Branch Feather River (PG&E), McCloud and Pit Rivers (PG&E)
- **Biological Science Technician**  
USDA Forest Service, Pacific Southwest Research Station 📍 Davis, CA
  - Developed and designed website on ecology, river regulation and conservation of the foothill yellow-legged frog (*Rana boylii*), including GIS synthesis and development of a distribution map showing over 6,000 records from multiple sources ([https://www.fs.fed.us/psw/topics/wildlife/herp/rana\\_boylii/](https://www.fs.fed.us/psw/topics/wildlife/herp/rana_boylii/)).
  - Conducted 1-D RHABSIM modeling and analysis. Coordinated field research, data collection, and writing.

## OPEN SOURCE CONTRIBUTIONS

All projects available at [github.com/ryanpeek/<name>](https://github.com/ryanpeek/<name>)

[www.r4wrds.com](http://www.r4wrds.com): R course for water resources data science

[{aggiedown}](#): R package for writing dissertations at UC Davis

[R-DAVIS](#): grad course in data science and visualization

[Mapping-in-R](#): short course for spatial/GIS topics

2001

- **Biological Science Technician**  
National Park Service 📍 Sequoia & Kings Canyon, CA
  - Backcountry position conducting Sierra yellow-legged frog surveys in mountain lakes, as well as habitat assessment, data collection, and non-native fish removal.
  - This position involved extensive backpacking and hiking experience while living in remote and rugged terrain at 10,000-12,000 feet for multiple weeks at a time. Required the ability to work independently, efficiently, and safely.
  - Initial year of a conservation/restoration project targeting the federally threatened Sierra/Mountain yellow-legged frog (*Rana sierrae*)

## SELECTED PUBLICATIONS

2021

- **The use of umbrella fish species to provide a more comprehensive approach for freshwater conservation management in California**  
Aquatic Conservation: Marine and Freshwater Ecosystems (accepted)
  - Obester, A., R. Lusardi, N. Santos, R. Peek, S. Yarnell

2021

- **Classifying California's stream thermal regimes for cold-water conservation**  
PLoS ONE 16(8): e0256286. 📍 DOI: 10.1371/journal.pone.0256286
  - Willis, A.D., R.A. Peek, A.L. Rypel

2021

- **Actinemys marmorata (Northwestern Pond Turtle) Feeding on Dicamptodon tenebrosus (Coastal Giant Salamander)**  
Northwestern Naturalist, 102 (3).
  - Peek, R.A. , S.J. Kupferberg, A.C., Catenazzi, P. Georgakakos, M. E. Power

2021

- **Flow regulation associated with decreased genetic health of a river-breeding frog species**  
Ecosphere, 12 (5). 📍 DOI: 10.1002/ecs2.3496
  - Peek, R.A., S.M. O'Rourke, M.R. Miller.

2020

- **Understanding community assembly rules in managed floodplain food-webs**  
Ecosphere, 12 (2). 📍 DOI: 10.1002/ecs2.3330
  - Corline, Nicholas J., Ryan A. Peek, Jacob Montgomery, Jacob V.E. Katz and Carson A. Jeffres.

2020

- **A functional flows approach to selecting ecologically relevant flow metrics for environmental flow applications**  
River Research and Applications, 36 (2), 318-324. 📍 DOI: 10.1002/rra.3575

## ↗ SELECTED DATA SCIENCE WRITING

- 2021 ● **Dammed Hot: California's regulated streams fail coldwater ecosystems**  
California Water Blog      ⬇ Center for Watershed Sciences  
• Story about classification of thermal regimes in CA and coldwater management concerns.
- 2020 ● **Drawing Boundaries with DNA to Improve Conservation**  
California Water Blog      ⬇ Center for Watershed Sciences  
• Story about using genetics to draw boundaries for conservation management
- 2016 ● **Cue the Frogs! Water signatures, environmental cues and climate change**  
California Water Blog      ⬇ Center for Watershed Sciences  
• Story about environmental cues for amphibians in rivers
- 2015 ● **Time Lapse Photos Expose Nature in the Raw**  
California Water Blog      ⬇ Center for Watershed Sciences  
• Story about using game cameras to monitor the environment

I enjoy writing about data science, rivers, R, making maps, and frogs [ryanpeek.org](http://ryanpeek.org)

## ▢ TEACHING EXPERIENCE

- 2021 ● **R4WRDS**  
SWRCB      ⬇ SWRCB  
• Created and co-instructed R for Water Resources Data Sciences Course, Intro and Intermediate levels. Focused on how to import different datasets, create visualizations, conduct exploratory data analysis, and clean and tidy water data. Taught as a 1 day course virtually in 2021.  
• ([www.r4wrds.com](http://www.r4wrds.com))
- 2021 | 2020 ● **CABW-SFS R Workshop**  
UC Davis      ⬇ UC Davis  
• Created and co-instructed a short workshop teaching introductory R using bioassessment data, focused on how to import different datasets, create visualizations to explore basic data trends, and create maps in R to explore/report spatial patterns.  
• Two short 2-hour sessions. [https://ucd-cws.github.io/CABW2020\\_R\\_training/](https://ucd-cws.github.io/CABW2020_R_training/)
- 2021 | 2016 ● **Data Carpentry Workshops**  
Various  
• Teach researchers in science, engineering, medicine, and related disciplines the computing skills they need to get more done using open source and reproducible tools. Specifically, have taught genomics/ecology/geospatial workshops at Stanford, UC Davis, UC Berkeley, and University of Rhode Island Coastal Institute. (<http://software-carpentry.org/>) (<http://www.datacarpentry.org/>)

I am passionate about education, and strive to continue learning how to be a better teacher. I am a proud Carpentries Instructor, and the community they represent.

2020  
|  
2019

- **Strategies & Techniques for Analyzing Microbial Population Structures**  
Marine Biological Laboratory  Woods Hole, MA
  - Research facilitator/teacher for the STAMPS course on analysis of metagenomic data. Provided interdisciplinary bioinformatic and statistical training to practitioners of molecular microbial ecology and genomics.
  - Topics covered included acquisition and organization of next generation sequence data; principles of quality control of sequence data and data management; methods of taxonomic assignment and clustering of targeted gene data. Also an introduction to the Linux command-line and R statistical environments. (<https://www.mbl.edu/education/courses/stamps/>)
  
- **R for Data Analysis and Visualization in Science**  
UC Davis  Davis, CA
  - Lead instructor and creator of graduate course teaching R and version control for 25+ students. Course designed to train students in toolsets applicable to the entire process of reproducible data-driven research and encourage the use of open-source tools.
  - Built website and made course materials openly available on github. (<https://gge-ucd.github.io/R-DAVIS/>).
  - Now a required graduate course in Ecology Grad Group
  
- **Foothill Yellow-Legged Frog Ecology, Management, and Regulation**  
Humboldt State  Arcata, CA
  - One of three main instructors for workshop designed to cover the natural history and management of the foothill yellow-legged frog.
  - Three days of lecture followed by a field day covered ecological requirements of the species, mitigation, restoration, and permitting requirements
  
- **Intro to Genomics (Data Carpentry)**  
DIBSI  Davis, CA
  - Co-instructor. Data Intensive Biology Summer Institute at UC Davis is a series of two-day or week-long workshops for biologists to learn bioinformatics and data science. The Intro to R course was built as an interactive, week-long introduction to the programming language R. Following Carpentry workshop content, taught basics of R by live-coding with participants
  - (<https://dib-lab.github.io/2018-06-27-DIBSI-Genomics/>)
